SPACING

CLEAR SPACE

It's important that an area of clear space is left around the logo. The recommendation is leaving a minimum of the height of the letter 'B' in 'Bob'. This area should be kept free of any other graphic elements — including photography, logos, text, shapes and illustrations.

ALTERATIONS

REFRAIN FROM:

Stretching the logo out of proportion

Changing the colours

Placing elements closer than the minimum space

Changing the text size

Changing the orientation

Changing the position of the text
